Tribeca Immersive: New Voices Competition North American Premiere

UK, DENMARK | 20 MINUTES | ENGLISH | ENGLISH SUBTITLES

LGBTQ+ VR MUSEUM

Society / Identity

LGBTQ + VR Museum is the world's first virtual reality museum dedicated to celebrating the stories and artwork of LGBTQ people by preserving queer personal histories. The museum contains 3D scans of touching personal artifacts, from wedding shoes to a teddy bear, chosen by people in the LGBTQ community and accompanied by their stories told in their own words. The in-person version presented at Tribeca is a never-before-seen biometric experience controlled by users' emotions in real-time.

Installation at Tribeca supported by Unity for Humanity.

Choose a screening time

Thu June 09 - 12:01 AM
Museum of Other Realities
